

## Customer information on the REACH Regulation

-Regulation (EG) Nr. 1907/2006 of 18.12.2006-  
SVHC Status: 14.06.2023 - 235 substances

Dear Sir or Madam,

Regulation (EC) No 1907/2006 (REACH) of the European Parliament and of the Council dated 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) entered into force on 1 June 2007..

According to article 33 (1) of the REACH regulation, as a supplier of an article we have the obligation to inform the customers if substances of the "SVHC-candidate list" are contained in the delivered articles in a concentration of more than 0.1 mass percent (w/w) per article part. SVHCs (substances of very high concern) are substances that fulfil the criteria as substances of very high concern according to Article 57 and Article 59 (1). A list of our products with components > limit value can be found in the appendix I of this information. Not listed Products in attachment 1, do not contain materials where an information obligation exists, at the current state of knowledge.

The SVHC-candidate list is regularly extended by the European Chemicals Agency (ECHA) and published on the website <https://echa.europa.eu/de/candidate-list-table>. Our declaration refers to the data status as of 14.06.2023 with a total of 235 substances.

We regularly monitor and evaluate the changes to the SVHC candidate list and are in constant contact with our suppliers to ensure that all necessary information on SVHC contained in our products above 0.1% by mass is provided in the future.
