

**Declaration of conformity  
RoHS-Directive 2011/65/EU and 2015/863/EU**

Dear Sir or Madam,

the European Union Directive 2011/65/EU (RoHS 2) on the restriction and use of certain hazardous substances in electrical and electronic equipment, came into force on 3 January 2013.

These are namely the following substances::

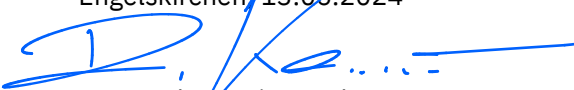

lead (Pb), cadmium (Cd), hexavalent chromium, (Crv1), polybrominated biphenyls (PBB), polybrominated diphenyl ethers (PBDE), mercury (Hg).

Substance bans existing as of 22 July 2019 due to the extension according to Directive (EU) 2015/863: Di(2-ethylhexyl)phthalate (DEHP), Butylbenzylphthalate (BBP), Dibutylphthalate (DBP), Diisobutylphthalate (DIBP).

However, since it is not possible to ban these substances completely, limit values have been introduced (max. 0.01% by weight of cadmium and max. 0.1% by weight of lead, mercury, hexavalent chromium, PBB, PBDE, DEHP, BBP, DBP and DIBP).

The electrical and electronic equipment manufactured by MDT within the meaning of the ElektroStoffV does not contain any of the substances listed therein in a higher concentration than the maximum permitted concentration, taking into account the exemptions of Annexes III and IV of the RoHS Directive.
